**Better Drivers... Better Service™**

### DRIVER RECRUITMENT & DEVELOPMENT

Big Freight's Driver Recruitment team takes great care in the selection and training of its Company Drivers and Owner Operators. Only those drivers who meet our stringent hiring criteria, and who we feel will make a real contribution to our customers' needs, are selected to drive for Big Freight.

We provide a solid orientation program for our newly-hired company drivers and owner operators. Our commitment to extensive training and orientation not only educates new drivers to the Company's policies and procedures, but trains them on all the safety issues and procedures that drivers must know to operate their equipment in a manner that protects the public, the company equipment, and the customer's product.

On-going training is also a very important part of our responsibility. Courses have been developed internally that re-train our driver force in areas such as load securement, safe driving techniques, hours of service, Dangerous Goods transportation and air brake adjustment.

The success of Big Freight is a direct result of the performance and safe driving skills of our professional drivers. We depend on each of them to meet or exceed our customers' needs in picking up, transporting and delivering their freight in a damage free and timely fashion. This challenging task requires a high degree of skill and knowledge. Our "Pinnacle Performance Award Program" was designed as a result of Big Freight's commitment to recognizing and rewarding our outstanding drivers for their effort, dedication and professionalism.

Big Freight is committed to providing quality service to our customers, and with the professional recruiting, training and recognition programs currently in place, we are able to make this a reality.

Our motto is Better Drivers.....Better Service™ and we believe our drivers make the difference in providing our customers with paramount service.

**1-866-FLATDEK (1-866-352-8335)**

### **General Freight**

Big Freight Systems is a true international carrier servicing Canada, the 48 contiguous United States and Mexico. Whether loaded on a step-deck, flat-deck, or in containers moving across the continent, our 5 decades of over-the-road transportation experience solidifies our commitment to professional, on-time delivery. Our 100% satellite-equipped power units ensure accurate and timely communication from dispatch to arrival.

### **Glass**

We are one of the few North American transportation companies that have made the commitment to specialize in the hauling of commercial glass. Our drivers have been fully trained to meet stringent industry standards in the handling and transport of crated and uncrated glass. Big Freight's diversified fleet consisting of Super B Trains, Super B Jumbos and Straight Trailers are spec'd with state of the art air-ride suspension, glass racking and securement devices, all critical factors inherent in attaining claims-free service.

### **theLOGISTICsteam.com**

While utilizing our own fleet of over 800 pieces of rolling stock, we have structured a comprehensive partner carrier program that mirrors our own commitment to customer service. This gives us a strong competitive advantage in the industry, strengthening our ability to individually meet our clients' transportation objectives in a cost-effective, efficient manner that allows them to focus on their core business.

### **Short Haul**

Our Short Haul Division is strategically and geographically positioned to fully utilize the resources of the major transportation hubs of the mid-western United States and central Canada. Specializing in import and export container traffic, we partner with all major international freight forwarders and shipping lines, utilizing our diversified chassis fleet, thereby enabling us to handle 20' and 40' containers. Our Short Haul fleet is also uniquely qualified to accommodate the harsh demands of winter roadwork in north-central Canada.
